Meals arrived in Haiti on Sunday, August 25. Below is an update and photos from Salonique Adolphe, Director of Living Water Mission:

This past Sunday, we received 396 boxes of food from A Child Hope International and US Air Force assured the transportation. (That's us, you all - good job!) Last year, they did the same and we were able to feed the children. This feeding program was one of biggest success factor of the school year. The students had no trouble to learn. They had no concern coming to school, consequently we had a great school year. Now the amount of food we have will not be able to feed the kids for the whole year. We will have way many more kids, probably 50% more than last year. But we are confident that we have enough food for the first term of the school and the first month of the second term. I pray by this time we have a solution to feed the kids the rest of the school year.
